

Academy of Chronic Liver Diseases Education

**A certificate program focused on management
of Chronic Liver Diseases with complications &
critical conditions**

About ASGE

The American Society for Gastrointestinal Endoscopy (ASGE) is the global leader in advancing digestive care through education, advocacy and promotion of excellence and innovation in endoscopy.

The American Society for Gastrointestinal Endoscopy upholds the highest standards for gastrointestinal endoscopic practice and fosters research to encourage continuous innovation.

It empowers members with the latest information, state-of-the-art education and unparalleled resources to advance professional and patient care goals.

With almost 16,000 members worldwide, ASGE provides a diverse, inclusive and engaged community to foster sharing, learning, advocacy, and growth in GI endoscopy.

Welcome Note

Dear Doctor,

As a part of the global healthcare ecosystem, Takeda's R&D is in constant pursuit of scientific breakthroughs to deliver transformative therapies to patients worldwide. Through partnerships, collaboration, and research, we aim to foster an ecosystem of innovation to translate cutting-edge science into impactful health solutions. To accomplish this, we have been working with some of the most credible institutions worldwide, to present data and other resources supporting your clinical practice.

Keeping in mind the constant need for an upgrade in the practice of medicine, once again we are here to support your learning through a unique initiative and we are pleased to announce the commencement of **Academy of Chronic Liver Diseases Education Program- ACE 2.0**.

This virtual, self-paced learning program is in collaboration with the most renowned body, the American Society for Gastrointestinal Endoscopy (ASGE). This program focuses on the complications and management of Chronic Liver Diseases.

We take great pleasure in inviting you to be a part of this initiative. Through this program, we aim to share with you the most recent and relevant learning about the complications and management of chronic liver diseases through modules, assessments, case studies, and virtual symposia for interaction with experts and more. Upon successful program completion, it will also be an honor for us to present to you a certificate of completion from ASGE.

Takeda is elated to be a part of your journey of growth, hoping this initiative serves as a medium of value addition.

Warm Regards,

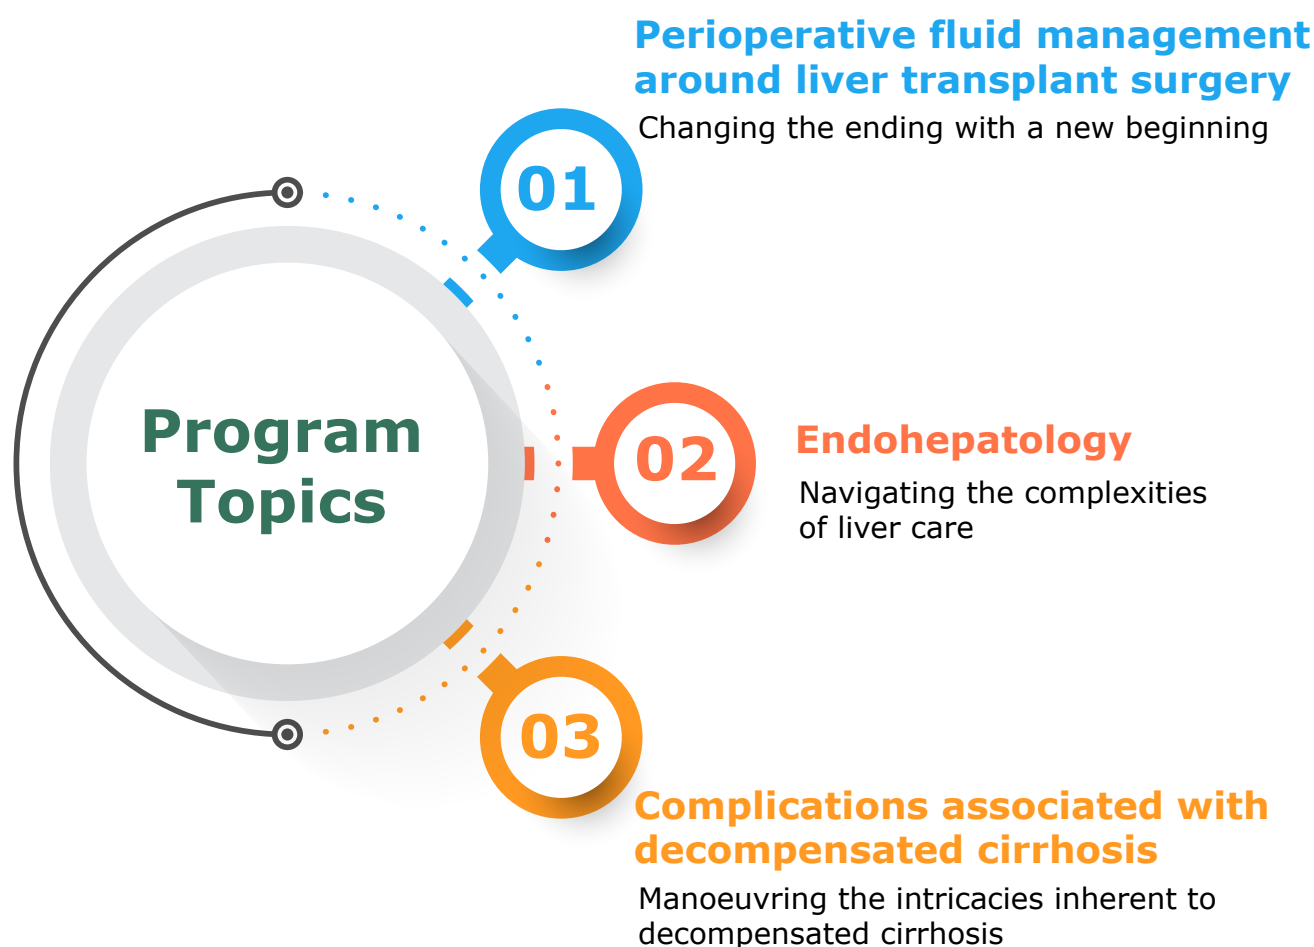

About the Program

The Academy of Chronic Liver Diseases Education Program- ACE 2.0 is an all-encompassing scientific initiative focusing on the management of chronic liver diseases with complications and critical conditions for Hepatologists and Gastroenterologists.

The program pedagogy includes blended monthly activities, spanning over a period of few months, covering modules, assessments, case studies and virtual symposia for interaction with subject matter experts.

The program would culminate with a Certificate of Completion from ASGE being awarded to the participants who complete the course successfully.

Program Highlights

1. Partnering with prestigious associations: ASGE.
2. Case-based discussions and real-time solutions from pioneers in liver disease management.
3. Analysis of skill enhancement through assessments.
4. Self-paced learning with content available for long-term viewership.
5. Certificate of Completion from ASGE.
